Most spaces are assigned by the unit to which they belong. Unassigned parking spaces should be equally split between residents of units if multiple units are present. (Example – 4 spaces at a duplex – 2 for unit A, 2 for unit B). Anything parked in an unauthorized area, including but not limited to, landscaped areas, driveways and unmarked areas, may be towed at the vehicle owner's/Lessee's expense and repairs to damaged landscaping, fencing, etc. will be charged to Lessee. Lessees are authorized to tow non-resident vehicles from corresponding spaces marked for their individual units with proper identification and a signed copy of this lease. Lessor assumes no liability or responsibility for towing by Lessee. Use only Thomas Towing, (805) 964-0989.

**25. LIQUIDATED DAMAGES:** There follows a series of house rules. It is agreed that Lessee's failure to obey each of them is a breach of this Agreement. It is also agreed that, as to each of them, Lessor's damages for Lessee's breach would be impracticable and extremely difficult to ascertain, and therefore, it is further agreed that the sum of money assigned to each as liquidated damages, additional rent for each such breach is a reasonable sum. That a violation of the lease subjects Lessee(s) to liquidated damages does not mean that Lessor may not terminate the tenancy for the violation. Lessor's demanding or receiving a liquidated damage amount is not a waiver of Lessor's right to serve a 3-day notice to perform or quit and is not a waiver of any other breach.

Noise complaints due to beer pong/die will be cause for removal of table (at lessee's expense), and consequence of violation of this house rule will be at lessor's discretion, which may include an additional cost.

**26. LESSOR'S RIGHT TO REPAIR/MAINTAIN:** Lessor may make any upgrades or repairs to the Premises including the property upon which the Premises is located at any time. This includes, but is not limited to: driveway repairs/resurfacing, drainage repairs, roof repairs/replacement, painting, plumbing repairs/replacement, electrical repairs/replacement, deck repairs/replacement, interior repairs/replacement and improvements to the landscape. It is recognized that such repair activities may cause some inconvenience to Lessees' and temporary suspension of utility services provided to the Premises. No compensation shall be owing from Lessor to Lessees for such inconvenience and/or suspension of utility services.

**27. FUMIGATION** – Lessees agree that if at any time during the term of this Lease Lessor determines that fumigation of the Premises, or the building in which the Premises is a part, is necessary, and that such fumigation requires Lessees to vacate the Premises for a limited amount of time that Lessees shall so vacate the Premises for the period required to complete said fumigation. Lessor shall give not less than seventy-two (72) hours written notice to Lessees of the necessity of fumigation, specifying the time that Lessees are to vacate the Premises, together with the notice required by Civil Code section 1940.8. Additionally, Lessees shall comply with all reasonable demands, with respect to protecting and/or removing their personal property as may be required for the fumigation work. If Lessees are required to vacate pursuant to this paragraph, there shall be no abatement of rent, nor will Lessor be responsible for the cost of temporary housing or relocation cost.

The obligation to defend and indemnify pursuant to this paragraph extends to Claims contributed to by the negligence or other misconduct of the Lessor as long as the Claim is alleged to be caused, or is caused, in part or whole by the negligence, active or passive, or misconduct of the Lessees, Lessees' guests and/or invitees.

**29. LIABILITY AND INSURANCE:**

- a. Lessee shall hold Lessor harmless from and defend Lessor against any and all claims, liability, loss, and costs for any injury or damage to any person or property from any cause whatsoever while such person or property is in, upon, or in any way connected with the use of the premises or the property by Lessee and others in or about the premises or the property with the permission (express or implied) of Lessee, except for that due exclusively to Lessor negligence.
- b. Lessor's insurance does not cover Lessee's, property, and does not provide Lessee with any coverage for acts or omissions of Lessee. Any loss suffered by Lessee due to vandalism, burglary, mysterious events, or other causes shall be the responsibility of Lessee. Lessor highly recommends that Lessee purchase Renter's Insurance.

**30. WAIVER:** The waiver by either party of any breach shall not be construed to be a waiver of any subsequent breach. The receipt of rent by Lessor with knowledge of any violation of a covenant or condition hereto shall not be deemed a waiver. Any waiver or modification of this lease must be in writing and signed by the waiving party.

**31. DEFAULT BY LESSEE:** The occurrence of any of the following shall constitute a material default and breach by Lessee; (a) any failure of Lessee to pay the rent or to make any other payment required hereunder; (b) the abandonment of the premises by Lessee; (c) a failure by Lessee to observe and perform any provision of the Lease or attachments incorporated by reference. In the event of any such default by Lessee, Lessor may terminate this Lease and regain possession of the premises in the manner provided by the California Laws of Unlawful Detainer. Lessor may recover from Lessee damages in the amounts specified in Civil Code section 1951.2.

**32. SEVERABILITY AND MISCELLANEOUS:** This Lease shall be governed by and construed according to the laws of the State of California. The invalidity of any portion of the Lease shall not affect the validity of the remaining portions. **35. CREDIT OBLIGATIONS:** As required by law, Lessee's are hereby notified that a negative credit report reflecting on your credit record may be submitted to a credit reporting agency if you fail to fulfill the terms of your credit obligations set forth in this Lease.

**36. NOTICE, MEGAN'S LAW:** The California Department of Justice, Sheriff's Departments, and Police Departments serving jurisdictions of 200,000 or more and many other local law enforcement authorities maintain, for public access, a data base of the locations of persons required to register pursuant to paragraph (1) of subdivision (a) of Section 290.4 of the Penal Code. The data base is updated on a quarterly basis and a source of information about the presence of these individuals in any neighborhood at [www.meganslaw.ca.gov](http://www.meganslaw.ca.gov). Depending on an offender's criminal history, this information will include either the address at which the offender resides or the community of residence and ZIP code in which he or she resides.

**37. ORDINANCE LOCATION:** Pursuant to Civil Code section 1940.7, Lessee’s hereby notified that the Premises may be located near a formal federal or state ordinance location.

**38. LEAD PAINT:** Housing built before 1978 may contain lead-based paint. Lead from paint, paint chips and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 housing, owners must disclose the presence of known lead-based paint and/or lead based paint hazards in the dwelling. Residents must also receive a federally approved pamphlet “Lead Pamphlet” on lead poisoning prevention.

1. Owner has no knowledge of lead-based paint and/or lead based paint hazards in the Premises. Owner has no reports or records pertaining to lead-based paint and or lead-based paint hazards in the Premises.
2. Lessee acknowledges receipt of the pamphlet “Protect Your Family from Lead in Your Home”.

See Section 1946.2 of the CA Civil Code for more information.

Additionally, Lessees shall also indemnify, defend and hold lessor, and lessor’s employees and agents, free and harmless from any loss, cost or liability arising from any delay by Lessee in surrendering the premises, including any claims it made by a succeeding lessee. Such holding over shall be deemed to be without consent of Lessor, and in contravention of the terms and conditions of this Lease. Additionally, Lessor shall be entitled to collect from Lessees the reasonable value of loss of use of the Premises, which shall not be deemed rent. Rather, such additional amount shall be deemed to damages for unlawful detention.

## REASONABLE WEAR AND TEAR ADDENDUM

For purposes of this Lease, Lessees and Lessor agree that “reasonable wear and tear” consists only of actual unavoidable detriment to the condition of the Premises, which would be generally expected to occur through normal use of the Premises. “Reasonable wear and tear” consists only of that “wearing out” of the Premises and its components that naturally takes place, even though reasonable care is taken to avoid and minimize it; and it does not include anything that can be corrected by cleaning.

If something could have been reasonably avoided or corrected, such is considered “damage” and not “reasonable wear and tear”. What is reasonable wear and tear is not to be judged on the basis of the number, character, or habits of Lessee(s).

It is impossible to list all things that would constitute “reasonable wear and tear”, just as it is impossible to list all things that are not “reasonable wear and tear”. Below, however, are some examples that Lessor and Lessees agree are either damage or are wear and tear as specified below:

### Wear and Tear

- well-worn keys
- sticky key
- worn finish on door lock
- worn pattern in countertop
- rust stain under sink faucet
- wear pattern on ceramic tile
- wobbly toilet
- faded paint
- rust stain under bathtub spout
- discolored light fixture globe
- sun faded blind slats
- rusted or frayed mesh on window screens
- worn window locks or guides

### Damage

- missing keys
- key broken off inside lock
- door lock or knob replaced by tenant
- burn or stain in countertop
- sink discolored by dye or stains
- cracked sink basin
- chipped or cracked floor or counter tile
- carpet burn or permanent stain or bleach spots
- rust marks from plant pot
- ripped or burned flooring
- broken toilet tank, seat, lid or toilet paper holders
- tack or nail holes, gouges, adhesive or other residues on walls, doors or other surfaces
- smoke damage or staining on painted surfaces
- damage to paint color sheen due to inappropriate cleaning and or cleaning products
- slow drains
- missing or broken light fixtures
- blinds with bent or broken slats or broken strings
- holes or tears in screen, bent screen frame
- broken or cracked windows

## PLUMBING RESPONSIBILITY ADDENDUM

Immediately upon taking possession of the Premises or the commencement of the Lease, whichever event occurs first, Lessees shall inspect all drains to ensure they flow freely. It will be assumed that all drains flow freely unless upon taking possession of the Premises or commencement of the Lease, the Lessor is otherwise immediately notified in Condition of Premises Report (see paragraph 15 of Lease).

If a blockage in the plumbing serving the Premises occurs at any time during the Lease term, Lessee is responsible for actual costs of all drain, toilet, dishwasher and garbage disposal obstructions. If a blockage occurs, Lessees shall immediately notify Dean Brunner Rentals, in writing. If drains are not clear and flowing at the termination of the Lease, Lessee will be responsible for any expense incurred to correct such a condition.

Do not use Liquid Plumber, Drano, or similar corrosive products. These products damage plumbing equipment and pipes. If damage occurs from any such products, Lessees will be responsible for cost to repair damages.

**DRAINS:** If any of the drains should become "slow" or clogged, Lessees shall immediately contact Dean Brunner Rentals and submit a written repair request.

Hair is the main cause of shower and bathroom sink clogs. Lessees are responsibility to use a strainer over your sink and shower drains.

Take caution in what you put in the garbage disposal and kitchen sink. Grease, pasta, eggshells, and fibrous foods will cause clogs.

**TOILETS:** Do not flush anything other than bodily waste and toilet paper down the toilet. Wipes should NOT be flushed down toilets including those that are labeled "flushable." Do not flush down toilets tampons, pads or any other feminine product, or condoms. Do not put paper towels, Kleenex, or Qtips in the toilet.

**HOW TO TURN OFF WATER TO STOP OVERFLOWING:** It is important for the Lessees to know how to turn off the water supply to fixtures in case of an emergency. Below each water fixture (faucet, sink, toilet) there is a small valve called an 'angle stop' protruding from the wall. There will be a small water supply line running from the angle stop to the fixture. By simply turning the handle of the angle stop clockwise, until it stops turning, you will turn the water off. Go to each fixture in your unit and make sure that you can shut the valve off by turning the angle stop handle clockwise. If the handle is difficult to turn, please submit a repair request in writing to Dean Brunner Rentals.

**Damages caused by overflowing toilets, sinks, etc. are Lessees' responsibility.**

## MOLD/MILDEW NOTIFICATION ADDENDUM

It is our goal to maintain the highest quality living environment for our Lessees. The Lessor inspected the Premises prior to lease term and knows of no plumbing leaks or damp or wet building materials and knows of no mold or mildew in Premises. If Lessees disagree then, upon taking possession of the Premises or commencement of the Lease, whichever event occurs first, Lessees shall immediately notify Lessor in Condition of Premises Report (see paragraph 15 of Lease).

Lessees are hereby notified that mold/mildew, however, can grow if the Premises are not properly maintained and ventilated. If moisture is allowed to accumulate in the Premises due to improper ventilation (i.e. opening windows & running exhaust fans and heaters), condensation or humidity, it can cause mildew and mold to grow. It is important that Lessees allow air to circulate in the Premises. It is also important that Lessees keep the interior of the Premises clean and notify Lessor of any leaks, moisture problems, and/or mold/mildew growth.

Mold/mildews are found nearly everywhere on Earth; they reproduce by emitting countless tiny spores that can easily become airborne; some mold/mildew spores will be found floating through the air and in house dust. The mold/mildew spores will not grow if moisture is not present and the Lessee's maintain the Premises in clean condition and repair. Indoor mold/mildew growth can and should be prevented or controlled by controlling moisture indoors. Isla Vista is close to the ocean and prone to fog and dampness. If there is surface mold/mildew growth anywhere in the Premises, Lessees must remedy any humidity issues and clean up the mold/mildew.

Lessees agree to maintain the Premises in a manner that prevents the occurrence of mold, mildew, and fungus growth within the Premises. Lessees agree to uphold this responsibility in part by complying with the following list of responsibilities:

1. Lessees agree to immediately clean and dry any visible condensation or moisture on windows, floors, ceilings, walls, and other interior surfaces as soon as it is discovered. (Note: Mold/mildew can grow on damp surfaces within 24 to 48 hours.)
2. Lessees agree to immediately notify Lessor of overflows from bathroom, kitchen, or laundry facilities; especially toilet overflow and those that may have permeated walls or cabinets.
3. Lessees agree to report to the Lessor any significant mold/mildew growth on surfaces inside Premises. Photographs should be provided.
4. Lessees agree to use bathroom fans and/or open the windows during and after showering or bathing.
5. Lessees agree to use exhaust fans and/or open windows whenever cooking, dishwashing or cleaning.
6. Lessees agree to allow for ventilation and airflow behind furniture and underneath beds by allowing for a gap of at least 2 inches between walls and/or floors and beds and/or furniture. This will increase circulation and help prevent moisture from being trapped behind furniture in humid rooms. Do not "overstuff" your closet or the space under your bed. Do not place mattresses directly on the floor.
7. Lessees agree to use unit heating systems to assist in keeping condensation from interior walls and windows during the colder months. (Space heaters are inefficient, cost more money to use and tend to overload breakers.) When it is colder inside than outside, condensation will appear on interior walls and windows.
8. Lessees agree to use all reasonable care to close all windows, skylights and other openings in the premises to prevent rain from penetrating into interior of Premises.
9. Lessees agree to immediately clean any mold or mildew from surfaces such as walls, ceilings, belongings, etc. and/or remove belongings as soon as mold or mildew is discovered.
10. Lessees agree to immediately report to the Lessor any water intrusion, such as plumbing leaks or roof leaks.
11. Lessees agree to notify the Lessor of any problems with the heating and ventilation systems within the Premises.
12. Lessees agree to defend, indemnify and hold harmless the Lessor, and Lessor's employees and agents, from any actions, claims, losses, damages and expenses arising from problems with mold/mildew, including, but not limited to, attorney fees that the Lessor may sustain or incur as a result of the negligence of Lessee or any guest or other person, occupying, or using the Premises.

## BED BUG ADDENDUM

**Bed bug Appearance:** Bed bugs have six legs. Adult bed bugs have flat bodies about 1/4 of an inch in length. Their color can vary from red and brown to copper colored. Young bed bugs are very small. Their bodies are about 1/16 of an inch in length. They have almost no color. When a bed bug feeds, its body swells, may lengthen, and becomes bright red, sometimes making it appear to be a different insect. Bed bugs do not fly. They can either crawl or be carried from place to place on objects, people, or animals. Bed bugs can be hard to find and identify because they are tiny and try to stay hidden.

**Life Cycle and Reproduction:** An average bed bug lives for about 10 months. Female bed bugs lay one to five eggs per day. Bed bugs grow to full adulthood in about 21 days. Bed bugs can survive for months without feeding.

**Bed bug Bites:** Because bed bugs usually feed at night, most people are bitten in their sleep and do not realize they were bitten. A person's reaction to insect bites is an immune response and so varies from person to person. Sometimes the red welts caused by the bites will not be noticed until many days after a person was bitten, if at all.

Common signs and symptoms of a possible bed bug infestation:

- Small red to reddish brown fecal spots on mattresses, box springs, bed frames, linens, upholstery, or walls.
- Molted bed bug skins, white, sticky eggs, or empty eggshells.
- Very heavily infested areas may have a characteristically sweet odor.
- Red, itchy bite marks, especially on the legs, arms, and other body parts exposed while sleeping. However, some people do not show bed bug lesions on their bodies even though bed bugs may have fed on them.

For more information, see the Internet Web sites of the United States Environmental Protection Agency and the National Pest Management Association. The websites are:

<https://www.epa.gov/bedbugs>

<http://www.npmapestworld.org/>

The prompt reporting of suspected bed bugs is critical to their treatment, which requires the full cooperation of Lessees, the Lessor and the pest control operator to be successful. Lessees shall immediately report suspected infestation by bed bugs to Dean Brunner Rentals in writing and fully cooperate with efforts by Lessor to eradicate confirmed infestation of bedbugs.

Lessor will notify Lessees of any units inspected by a pest control operator of the findings by such operator within 2 business days of receipt of the findings. All Lessees will be notified of confirmed infestations within the Common Areas surrounding the Premises.

Controlling bed bugs is uniquely challenging, as bed bug resistance to existing insecticidal control measures is significant. Early detection and reporting of bed bugs are an important component required for preventing bed bug infestations. Lack of cooperation by Lessors and Lessees can undermine pest control operator efforts to identify the presence of bed bugs and control an infestation. Depending on the treatment strategy, it is often critical that residents cooperate with pest control operators by reducing clutter, washing clothes, or performing other activities.

Lessees agree and understand:

1. Lessees agrees that any and all personal property (furniture, clothing, mattress, bedding, etc.) that Lessees or their guests bring into the Premises have been inspected for bed bugs and do not contain any Bedbugs. If Lessee detects that any personal property of Lessee may have bed bugs, Lessees agree not to bring said property onto the Premises
2. Lessees agree to report any sighting or signs of bed bugs immediately in writing to Dean Brunner Rentals.
3. Lessees agree to cooperate in every way with Lessor's requests regarding bed bug control and eradication efforts.
4. Lessee agrees to indemnify and hold Lessor harmless from any claims, losses, damages or loss of personal property due to bed bugs.

## SANTA BARBARA COUNTY NOISE ORDINANCE ADDENDUM

### **Santa Barbara County Ordinance states: Sec. 40-2. - Noises prohibited.**

It shall be unlawful within the unincorporated area of the County of Santa Barbara to make, assist in making, permit, continue, create, or cause to be made, any loud and unreasonable noise, music, percussion or other sound which is broadcast outside of any residence or building by means of any amplified musical instrument, drum, or similar device, or by means of any radio, loudspeaker, sound amplifier or phonograph, or by means of or employing any similar device which amplifies and produces, reproduces or broadcasts sound, during any of the following periods of time:

(a) The night and following morning of any Sunday, Monday, Tuesday, Wednesday, or Thursday between the hours of 10:00 P.M. of such day and 7:00 A.M. the following morning; or,

(b) The morning hours after midnight of any Friday or Saturday, between twelve midnight, following such day, and 7:00 A.M. the following morning.

Within such time periods, and for the purposes of this chapter, a loud and unreasonable sound shall include any sound created by means prohibited above which is clearly discernable at a distance of one hundred feet from the property line of the property upon which it is broadcast or which is at any level of sound in excess of sixty decibels at the edge of the property line of the property upon which the sound is broadcast, as such sound would be measured on a sound measuring instrument meeting American National Standard Institute's Standard S1.4-1971 (or more recent revision thereof) for Type 1 or Type 2 sound level meters or an instrument and the associated recording and analyzing equipment which provide equivalent data.

Enforcement of a violation under this chapter shall not require the use of a sound level meter.
